All of the following criteria used in determining eligibility must be considered: Regression-Recoupment: Refers to a child's loss of a skill on IEP objective(s) after at least two (2) breaks in instruction without regaining the documented level of skill(s) prior to the break within the specified period. Critical Point of Instruction 1: Refers to the need to maintain a child's critical skill to prevent a loss of general education class time or an increase in special education service time. Critical Point of Instruction 2: Refers to a point in the acquisition or maintenance of a critical skill during which a length break in instruction would lead to a significant loss of progress. Extenuating Circumstances: Refers to special situations that jeopardize the child's receipt of a FAPE unless ESY services are provided NOTE: Although ESY services typically focus on existing annual goals or STIO/Bs, the IEP Committee may determine the child needs to master a new goal or objective to be able to master or maintain the critical skill identified as the basis for ESY services. Only in this situation may the IEP Committee write a new goal and/or objective to address this critical skill. The type or severity of the child's disability must cause the skills learned by the child during the regular school year to be significantly jeopardized if he/she does not receive ESY. This child's situation MEETS criteria for ESY Services. This child's situation DOES NOT MEET the criteria for ESY Services. education class time or an increase in special education service time. Critical Point of Instruction 2: Refers to a point in the acquisition or maintenance of a critical skill during which a length break in instruction would lead to a significant loss of progress. Extenuating Circumstances: Refers to special situations that jeopardize the child's receipt of a FAPE unless ESY services are provided NOTE: Although ESY services typically focus on existing annual goals or STIO/Bs, the IEP Committee may determine the child needs to master a new goal or objective to be able to master or maintain the critical skill identified as the basis for ESY services. Only in this situation may the IEP Committee write a new goal and/or objective to address this critical skill. The type or severity of the child's disability must cause the skills learned by the child during the regular school year to be significantly lepoardized if he/she does not receive ESY.
